Univ. of Central Punjab
2021 – 2025

Intermediate

Lahore
2017 – 2019

Matriculation

Lahore
Aug 2017

PROFESSIONAL SUMMARY

Full Stack Engineer with expertise in building scalable web and mobile applications from Figma to production. Experienced in delivering complete SaaS products — designing database schemas, crafting robust APIs, and building responsive, pixel-perfect UIs. Passionate about clean architecture and modern JavaScript tooling.

WORK EXPERIENCE

Junior Software Engineer

Slysol

September 2025 – Present

- Translate Figma designs into responsive, production-ready web applications with pixel-perfect accuracy.
- Build full-stack systems using Next.js, React, TypeScript, and Tailwind CSS on the frontend and Node.js on the backend.
- Design and manage relational databases with PostgreSQL & MySQL using Drizzle ORM for type-safe queries.
- Develop and ship complete SaaS features end-to-end — from database schema through API to deployed UI.
- Maintain code quality through clean architecture principles and collaborative code reviews.

PROJECTS

Full SaaS Applications

Personal Projects · 2023 – Present

Architected and delivered multiple full SaaS products independently — covering user authentication, subscription billing, admin dashboards, and REST APIs — from concept through to deployment.
